DETAILED ACTION

Note: This action is NON-FINAL.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent Number 410129523 (hereafter Hashimoto).

Re claim 1, Hashimoto discloses a front side-part structure of a vehicle, comprising a front side member (1), a fender apron inner panel (4) disposed at a lateral side of the front side member, a fender apron upper panel (3) disposed at a lateral side of the fender apron inner panel, and a reinforcing member (5) coupled with the fender apron upper panel, fender apron inner panel, and front side member.

Re claim 2, the fender apron inner panel is coupled at one end to the front side member, and the other end thereof is coupled to the fender apron upper panel by being upwardly bent (see figure 3).

Response to Arguments

3. Applicant's arguments with respect to claims 1 and 2 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

4. Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
